24x20 m (Russia)

27x22 m (2 pcs) and 10x8 m (Malaysia)

3 doors (Belgium)

9x6 m (France)

Megadoor shipyard doors

Shipyard doors are often very big and must withstand high wind loads and corrosion. The Megadoor is very suitable for this type of application with its good qualities in severe environments.

Megadoor shipyard doors are operating successfully all over Europe and many other countries. The trouble-free operation and low maintenance cost is much appreciated by the clients.

30x12 m (China, Shanghai)

13x8 m w. column (Finland)

SOME BENEFITS:

- Resistant to high winds
- High corrosion resistance
- Reliable in operation
- Minimal maintenance required
- High safety level
- Draught free
